

AMENDMENT TO THE SPECIFICATION

Replace the Brief Description of the Drawing section with the following rewritten version.

BRIEF DESCRIPTION OF THE DRAWINGS

In the face of the state of the technique described above, the present invention of Pit Furnace Closing System is being proposed, which will be related with reference to the drawings listed below in which:

FIG. 1 illustrates a schematic view of a pit furnace of the conventional type;

FIG. 2 illustrates a schematic view of a proposed pit furnace and its closing system;

FIGS. from 3 through 18 illustrate views of variants for the device that conditions the part to be worked on inside the pit furnace in reference; and

FIGS. 19, 20, 21, 21A, 22, 22A, 23 and 23A represent variations of complementary lids for closing the pit furnace yet within the scope of this patent.
